

Achieved Milestones

- Groups
 - Create groups, add members, remove self from group
- Filtering
 - By event type (public/group-specific), time, location
- Events
 - Can select host from dropdown when creating/editing
 - DateTime and Location fields are properly updated for edit page
 - Can make events Public or Group-specific
- Updated DateTime pickers and location picker
- User signup with username, email, password
 - Email verification
- Update map popups with more information

Difficulties/Problems

- Bootstrap format changes for some filtering
