

-MVP feedback should be graded by tonight

Feature Freeze Demo

- Demo
 - Homepage display
 - Event creation
 - Time zone issues?
 - Event editing
 - Showing event updates?
 - Groups
 - Creating group, adding people
 - Filtering
 - By location, time, group
 - Other comments
 - Host is either user or group that user is a part of
 - Can make privacy of event for multiple groups
 - User authentication
 - Problem: Log in with verified account, all CSS disappears
 - Sign up, receive email, click on link to verify, redirects to main page with no CSS. Can log in though.
 - Might be loading page without loading entire app
 - React just rendering 1 page's html. Try loading the entire page from scratch.
 - Have the page accept some sort of parameter
 - Extra root on server to load entire page?
- Requests for app demo for prizes going out soon/tomorrow
