

# mapMIT

Rena, Elysa, Casey, & Dora

# Why mapMIT?

- ▶ Lots of events happen at MIT
- ▶ Events are publicized through newsletters, flyers, and mailing lists
- ▶ We often don't know what's happening and when

# What is mapMIT?

- ▶ One place for information about all events happening on campus
- ▶ Events displayed on a map

# Purposes

# Concepts

Let users view and create events happening at MIT.

**Event**

Make events specific to certain people.

**Group**

Let users find where events are happening.

**Location**

# Risks

- ▶ Users join groups they shouldn't be in
  - ▷ Group owner adds members
- ▶ Users get added to groups they don't want to be in
  - ▷ Users can remove themselves
- ▶ Event details change
  - ▷ Edited events are visibly flagged
- ▶ Non-MIT people viewing MIT events
  - ▷ Authenticate users
